EXPERIENCES

CELEBRATE

Weddings, anniversaries, birthdays....

At EMC, we create everlasting memories by celebrating life and its possibilities. No celebration is too big, nothing is too much and we provide all you desire and then some. Celebrations often turn out to be a test of endurance; chaos and pandemonium reigning. Our objective in this circumstance is to ensure that you actually enjoy the experience rather than give in to the numerous concerns that arise. We take it upon ourselves to ensure that you do not need to deal with any woes right from deciding to create an event until after the big day.

We believe that one needn't give into the traditions of the usually dull settings of a seminar or conference. There are a wide range of possibilities to turn these drab scenarios into more enjoyable experiences. Not only are we adept at providing an eye-catching yet formal set design but also catering to multiple event technology concepts that not only make the event more captivating but simultaneously more enjoyable.

LEARN

Meetings, seminars, trade shows....

BOND

Offsites, retreats, leisure travel....

Goa, our home base, provides an ideal setting for any leisure or bonding activity that one may wish to indulge in. Ranging from corporate team building activities to leisure getaways for a bunch of close friends or family, we understand the variations and limitations of each facet. Our endeavour is to ensure stress-free planning and one can rest assured that the importance of these events is not lost on us.
